SPECIAL AGENT [REDACTED]

Re previous correspondence concerning the successful development of CG 5624-S and [REDACTED] by Special Agents [REDACTED] and Carl N. Freyman.

The work performed by Special Agent Freyman has been recognized and he has been afforded a within-grade salary increase.

With regard to Special Agent [REDACTED] in urlet of July 9, 1952, you stated that he had performed a very outstanding job, particularly in regard to the development of [REDACTED] but you withheld recommending commendation at that time not because of any lack of recognition for his work, but due to a desire on your part to see whether or not [REDACTED] is successful in reactivating himself in the Communist Party. In your let of July 9 you further advised that the degree to which this informant can reactivate himself will determine the type of commendation Special Agent Wilson deserves.

b6
b7C
b7D

Since that time it has been observed that [REDACTED] has been attending Progressive Party meetings and attempting to re-establish his former contacts in the Progressive Party, with the view in mind of eventually penetrating the Communist Party itself. The informant has been confronted with the disorganized condition of the Communist Party and has not as yet been able to become completely reactivated.

You are requested, however, to review this situation and furnish your opinion or recommendation at this time concerning any commendation you feel is warranted in the case of Special Agent [REDACTED]

Dear Mr. Freyman:

Careful consideration has been given to your inadequate supervision of an Internal Security case involving [redacted]. You approved a report in this case dated February 8, 1955, which included erroneous information in the character of the copy of the report which was initialed. In addition, the details of the report contained information concerning the employment of [redacted] which should not have been included in a report which was classified as was this report. Your failure to detect these errors reflects seriously upon your supervisory ability, and errors of this nature must be eliminated.

b6
b7C

Hereafter, you will be expected to perform your supervisory duties with greater thoroughness and closer observance of existing regulations in order that there will be no further necessity to communicate with you on such a matter.

Very truly yours,

Dear Mr. Freyman:

Your completion today of ten years of loyal and faithful service is indeed an occasion for special recognition. I wish to take this opportunity to extend my heartfelt congratulations and present, on behalf of the Bureau, the enclosed Ten-Year Service Award Key.

In addition to congratulations and the Service Award token, I want to let you know how greatly the Bureau values the loyalty and conscientious devotion to duty which you have consistently evidenced during your ten years of service. These are the intangibles incapable of measurement but so indispensable to the Bureau's success. You may well take pride in the certainty that you have had a commensurate share in placing the FBI in its enviable position of public esteem.

As we face the ever-increasing responsibilities of this Bureau, I trust we will continue to receive the benefit of your ability and experience.

With best wishes,

Special Agent
GS-12
EOD 2/2/42

In view of the resignation of the Special Agent in Charge, this report is being submitted.

During the rating period this Agent has continued to be assigned investigations of Communist front groups, Communist infiltration of labor organizations and key figures. In addition he has worked on cases involving Labor Management Relations Act subjects. He has performed his duties in a thorough and efficient manner and his work has required a minimum of supervision. His reports have been well prepared and well organized.

This Agent has also been assigned duties in connection with the development of informants, particularly interviewing of persons suspected of being defectors from the Communist Party. His work in this connection has been thorough and satisfactory. This Agent has a dictation rating of Excellent.

SUBJECT: COMMUNIST PARTY - USA
DEVELOPMENT OF CONFIDENTIAL INFORMANTSPURPOSE

To set forth the names of the Special Agents recommended for attendance at the approved indoctrination course to be held September 17 and 18, 1951, preparatory to interviewing high level Communists as potential informants.

DETAILS

Reference is made to my memorandum of September 7, 1951, recommending that ten Special Agents be selected for attendance at the indoctrination course preparatory to interviewing high level Communists as potential informants. A teletype was transmitted directing that ten specially selected Special Agents be recommended as follows:

Los Angeles	- - 2
Detroit	- - 2
Chicago	- - 2
New York	- - 4

The Sac's were advised that the agents should be chosen on the basis of suitability for the assignment, experience in developing or handling informants, and knowledge of Communism. The Special Agents chosen by the field for this assignment are as follows:

Los AngelesSpecial Agent Merle L. Parker GS-12

This agent entered on duty June 22, 1942 and has progressed satisfactorily. He has been regularly assigned to the Communist Squad since August, 1946, and due to his work on informant matters received a meritorious raise in August, 1950. In his last annual efficiency report he was rated as satisfactory. He is well qualified for this special assignment.

Special Agent [redacted]

GS-12

This agent entered on duty April 7, 1941 and has progressed satisfactorily in the Bureau. He has been assigned to the Communist Squad since July, 1944, and has assisted materially in the supervision of Communist work. In his last annual efficiency report he was rated as satisfactory. He is well qualified for this special assignment.

Recommendation:

It is recommended that Special Agents Parker and [redacted] be approved for this special assignment.

Chicago

Special Agent Carl N. Freyman

GS-12

This agent entered on duty December 1, 1942 and has progressed satisfactorily. He has been assigned the investigation of Communist and Front groups, Communist infiltration of labor unions, and Key Figures connected with these organizations. He has also had the responsibility of supervising live informants. In his last annual efficiency report he was rated as satisfactory. He is well qualified for this assignment.

Special Agent [redacted]

GS-12

This agent entered on duty April 14, 1947 and has progressed satisfactorily in the Bureau. He has been assigned during the past two years the investigation of internal security cases. In his last annual efficiency report he was rated as satisfactory, and is well qualified for this assignment.

Recommendation:

It is recommended that Special Agents Freyman and Wilson be approved for this special assignment.

Detroit

Special Agent Joseph Hyble

GS-12

This agent entered on duty March 9, 1942 and has progressed satisfactorily. He has been assigned to Communist matters since 1946 and handles the majority of the confidential informants in the Communist field. In his last annual efficiency report he was rated as satisfactory. He is well qualified for this special assignment.

Special Agent Fred G. Cook

GS-12

This agent entered on duty December 15, 1941 and has progressed satisfactorily. He has had considerable experience in Communist matters and was one of two Special Agents to testify in the trial of the Communist leaders in New York City. Special Agent Cook received a letter of commendation for the manner in which he conducted himself as a witness in that case. In his last annual efficiency report he was rated as satisfactory, and he is well qualified for this assignment.

Recommendation:

It is recommended that Special Agents Hyble and Cook be approved for this special assignment.

New York

Special Agent [redacted]

GS-12

This agent entered on duty August 30, 1943 and has progressed satisfactorily. [redacted] developed the present excellent trash coverage on Communist Party Headquarters. This accomplishment has resulted in the Bureau receiving a tremendous amount of valuable information. Since its establishment, [redacted] has supervised the continuance of the informant who furnishes this trash coverage.

On August 7, 1951, Special Agent [redacted] was given a letter of commendation for his part in the successful surveillance of Communist leader, [redacted] who was apprehended as a Smith Act subject. In his last annual efficiency report he was rated as satisfactory, and he is well qualified for this assignment.

b6
b7c

Special Agent [redacted]

GS-12

This agent entered on duty October 8, 1933 as a typist and entered training school as a Special Agent on October 18, 1943. He has progressed satisfactorily in the field. [redacted] is experienced in Communist matters, and it is recalled that after the apprehension of [redacted] Special Agent [redacted] while in the Federal House of Detention, stopped by [redacted] cell and inquired of his health. [redacted] has been troubled with ulcers. [redacted] was surprised at the solicitude of Special Agent [redacted] and was friendly. In the past [redacted] has been most antagonistic toward the Bureau. In his last annual efficiency report Special Agent [redacted] was rated as satisfactory.

Under date of September 8, 1951, Special Agent [] was sent a letter of censure for his part in not notifying the Bureau after he had been contacted by the Chairman of the Coast Guard Appeal Board in New York City. The Coast Guard telephonically requested information from Special Agent [] and another Special Agent Eldred Cox concerning a seaman who claimed to have furnished information to the New York Office. Special Agents [] and Cox confirmed the cooperation with the New York Office by the seaman, but the Chairman of the Appeal Board in some manner misconstrued the remarks of Special Agents [] and Cox and cleared the seaman. The Appeal Board allegedly based its decision on the statements and opinions of Special Agents [] and Cox and placed the responsibility for their decision on the agents. Despite the above incident, it is believed that Special Agent [] is well qualified for the assignment of interviewing high level Communists under the present program.

Special Agent []

GS-12

This agent entered on duty May 12, 1947 and has been engaged in investigation of security matters. He received a letter of commendation in February, 1951, for the excellent manner in which he submitted a report in the investigation of the Institute of Pacific Relations. In his last annual efficiency report he was rated as satisfactory, and he is well qualified for this assignment.

Special Agent []

GS-12

The New York Office recommended as its fourth Special Agent for this assignment William J. Tracy, but it is the Bureau's opinion that another Special Agent [] is better qualified.

b6
b7c

[] entered on duty July 15, 1940 as a messenger and entered training school as a Special Agent on October 6, 1941. He has progressed satisfactorily in the Bureau. For the past several years this agent has been handling many of the national defense informants of the New York Office, among whom is []. In his last annual efficiency report [] was rated as satisfactory, and due to his experience with informants, particularly [] he is well qualified for this assignment.

Recommendation:

It is recommended that Special Agents [] and [] be approved for this special assignment.

It is noted that most of these Special Agents are presently handling live informants. Under this program they will be contacting high level Communists. To prevent any current live informants from being compromised, it will be necessary for these specially trained Special Agents to turn over any informants they are now operating to other Special Agents during the time this program is in effect. It is anticipated that this situation will prevail until the program is completed.

ACTION

For your approval there is attached an appropriate teletype to the offices involved, directing that the recommended agents report to the Bureau for this special assignment on September 17, 1951.

Information secured from SA Donohue of the Domestic Intelligence Division reflects that the following Special Agents would be in attendance at a special conference, to be held September 17 and 18, 1951, which was being conducted in order to carry out the program of developing high-level informants in the Communist Party - U. Upon receipt of the information indicating identities of the agents who would attend this conference, [redacted] of the Training and Inspection Division was contacted in order to ascertain whether or not it would be advisable to hold an Inspectors' Aide class on September 19 and 20, 1951.

[redacted] advised that in his opinion it would be unwise to afford Inspectors' Aide training to any of the above individuals at this time. He felt that they were being afforded specialized training by the Bureau in the field of security work with relation to the Communist Party, and they undoubtedly would be completely tied up for a period of at least a year in carrying out such work, and would not be available for special assignment as Inspectors' Aides for a long period of time. In view of this fact, he strongly recommended against affording them Inspectors' Aide training at the present time.

RECOMMENDATION:

It is recommended that no Inspectors' Aide training be afforded to the above-listed agents at this time, in view of the fact that they would be unavailable for special assignment to perform duties of an Inspectors' Aide for a considerable period of time.

CARL N. FREYMAN
Special Agent
GS-12
EOD 2-2-42

During the rating period Agent FREYMAN has been assigned the investigation of Communist front groups, Communist infiltration of labor unions, and Key Figures connected with those organizations. Two of these groups, the International Workers Order and Communist Infiltration of the United Packinghouse Workers of America-CIO, in which Chicago is office of origin, required a considerable amount of detailed work and investigative efforts, as well as close supervision on the part of the agent, which Agent FREYMAN handled in a very capable manner. He has also handled Sabotage and Labor Management Relations Act cases and has had the responsibility of supervising several live informants.

Agent FREYMAN is a mature, veteran agent. He is very conscientious and enthusiastic about his work. His investigations are very thorough and require a minimum amount of supervision. His reports reflect careful preparation and organization and contain the average number of errors.

He has a dictation rating of excellent.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared. Rate items as follows:

- + Outstanding (exceeding excellent and deserving special commendation).
✓ Satisfactory (ranging from good to excellent but not sufficient to rate outstanding).
- Unsatisfactory.
○ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

An 'Outstanding' rating cannot be justified unless all elements rated are 'plus', and in addition, of course, supporting comments must comply with the requirements as set out below.

So far as 'Satisfactory' and 'Unsatisfactory' ratings are concerned, it is impossible to provide a mechanical formula for computing the various 'plus', 'check', and 'minus' marks because such would presume equal weight for all elements rated. Good judgment must be exercised to insure that the adjective rating is reasonable in the light of the elements rated. All minus marks must be supported by narrative detail, and of course, all 'Unsatisfactory' ratings must comply with the requirements as set out below.

EOD 2-2-42

During the rating period this agent has continued to be assigned to the Security Squad. He has been assigned cases involving Communist front organizations, Communist infiltration into labor organizations, and to the investigation of Key Figures. Since the instigation of the TOPLEV Program, Agent FREYMAN has been assigned exclusively to this project. He has an excellent grasp of Communist theory and has handled all his work with regard to Communist investigations, as well as the work involved in the TOPLEV Program, in a very capable manner. During the past year Agent FREYMAN has developed several excellent Communist informants and, prior to his participation in the TOPLEV Program, handled such in an excellent fashion.

His paper work is prepared in a thorough manner and requires little supervision. He has demonstrated that he is qualified to handle the most complicated investigative matters. SA FREYMAN is in excellent physical condition, has ability to supervise or handle any dangerous assignment, and is available for special assignment.

SA FREYMAN is a hard-working, enthusiastic agent and is available for duty at any time.

This agent is rated as an excellent dictator. |

DATE 12-28-2011

The captioned agent is scheduled to attend In Service training commencing May 12, 1952.

This agent is assigned to the Toplev Program in the Chicago office and in connection with this Program has for the past two weeks been interviewing MORRIS CHILDS, a former national leader of the Communist Party and formerly District Chairman for District #8, Chicago, Illinois.

The Bureau has been advised in connection with the Toplev Program that CHILDS is extremely ill with a heart condition which limits interviews with him to a short period of time several times per week.

Agent FREYMAN has been able to obtain a most cooperative attitude on the part of CHILDS and it is believed that it is most undesirable at this time to have another agent contact CHILDS for interview purposes.

CHILDS has an extensive knowledge of all phases of Communist activity from both a national and a local standpoint and it is believed that interviews with him should be continued and that as much information as possible be obtained from him expeditiously in view of his condition.

Therefore, the Bureau is requested to postpone Agent FREYMAN's In Service training until a later date in order that these most important interviews can be continued. The Bureau will be advised when the interviews have progressed to the point where it is believed they can be taken over by another agent at which time Agent FREYMAN will be available for In Service training.

PERSONNEL ADVANCEMENT *100-17-1*

There is set forth below a summarization of the capabilities and availability of all supervisory personnel, Special Agent personnel in Grade GS-13, and other agent personnel who should receive consideration for advancement in compliance with instructions contained in SAC Letter No. 34, Series 1952, dated April 8, 1952.

SUPERVISORS

WAYNE S. MURPHY - Supervisor, Criminal Squad

This agent entered the Bureau's service on May 6, 1929, and has served as a supervisor in the field and at the Seat of Government. He was also assigned as ASAC in the Honolulu Division. Mr. MURPHY is a very competent field supervisor and is thoroughly familiar with Bureau policy. As the Bureau is aware, Mr. MURPHY in the past has been troubled with high blood pressure, and due to his age and physical condition, it is not felt he should be considered at this time for the assumption of additional responsibilities.

[REDACTED] - Supervisor, Security Squad

This agent entered on duty with the Bureau on March 3, 1941, and has served as a field supervisor as well as a supervisor at the Seat of Government. [REDACTED] is a very capable Security Supervisor and possesses a definite potential for additional responsibility. As the Bureau is aware, [REDACTED] has suffered a recurrence of a stomach ulcer, and he has returned to active duty as of April 22, 1952, after a protracted period of Sick Leave. In view of the condition of this agent's health, it is not felt he should be considered for additional responsibility at this time.

especially in his present position as Supervisor of the Selective Service and Deserter Squad in which capacity he has the responsibility of training the newer agents in the criminal investigative field. He is a most patient individual and has done exceptionally well with the newer agents. He has served as a supervisor in the field on one previous occasion prior to his resignation and has had the benefit of attending the Bureau's Major Case School and the Field Supervisory School. Mr. DENNIS is most interested in his present administrative assignment and at this time is not desirous of assuming additional administrative responsibilities. This agent is definitely interested in progressing in the Bureau's service but has expressed a desire that in the event the Bureau considers him for additional responsibility, such be directed to the investigative field rather than the administrative field.

[REDACTED] - Supervisor, Technical Squad

b6
b7C

Agent [REDACTED] entered the Bureau's service on August 1, 1939, and is presently serving in his first assignment as a field supervisor. As the Bureau is aware, Agent [REDACTED] during 1951 suffered a most serious illness and was on Sick Leave for a protracted period of time. It is not felt in view of his physical condition that he should be considered for additional responsibility at this time.

ASSISTANT SUPERVISORS

JOSEPH P. MC MAHON - Asst. Supervisor, Security Squad

This agent entered the Bureau's service on October 2, 1939, and has served in the capacity of a field supervisor as well as a supervisor at the Seat of Government. This agent presents an excellent appearance and possesses good sound judgment. He is well grounded in the Security field and is most thorough and meticulous. As a supervisor, Mr. MC MAHON is forceful and aggressive, and has operated here as a supervisor in the most competent fashion. Although Agent MC MAHON is definitely interested in progressing in the Bureau's service, he is not interested in assuming additional responsibilities in the administrative field but prefers assignments in the investigative field.

Agent [redacted] entered the Bureau's service on August 12, 1940, and is presently serving in his first assignment as a field supervisor. This agent is a very intelligent individual, and his services as an Assistant Supervisor in the Chicago Office have been most satisfactory. Although [redacted] is most interested in advancing in the Bureau's work, he feels that in the event the Bureau desires to increase his responsibilities, he prefers assignments in the investigative field.

[redacted] - Asst. Supervisor, Security Squad

This agent entered the Bureau's service as an agent on June 7, 1943, having previously been in the Bureau's service as a Chief Clerk in the Knoxville Division. He is presently serving in his first assignment as a field supervisor. [redacted] is a very competent supervisor and is being made the subject of a separate communication to the Bureau requesting permission to utilize his services as an Assistant Supervisor on the Applicant Squad. This request is necessitated by the transfer of Supervisor [redacted] to the Bureau. It is the recommendation of the Chicago Office that SA [redacted] be made the full-time Applicant Supervisor and that [redacted] be assigned as his assistant.

[redacted] - Asst. Supervisor, Criminal Squad

This agent entered on duty with the Bureau on March 17, 1941, and is presently serving his first assignment as a field supervisor. He has an excellent grasp of the Bureau's procedures and techniques and is well grounded in the Bureau's procedures and policies. His background in the Bureau has been in the investigative field and he is considered an outstanding criminal investigator. Since his assignment as field supervisor, his services have proven most satisfactory, and it is felt that he can competently handle Bureau personnel. He makes a very good impression, is mature, and has exercised sound judgment. He is interested in progressing in the Bureau's service along administrative lines.

SPECIAL AGENTS IN GRADE GS-13

RUSSELL P. BALDWIN

This agent entered the Bureau's service on April 16, 1932, and has had extensive field experience. He also served previously as a supervisor at the Seat of Government and is considered one of the outstanding accountants in the service. He has been most useful in the Chicago Office in the training and development of new accountants, and his ability and interest lie in the accounting field. As the Bureau is aware, this agent underwent a thyroidec-tomy sometime ago and thus in view of his age, service and health, it is not felt he should assume additional responsibilities at this time. Agent BALDWIN is definitely interested in progressing in the Bureau's service, but his interest lies in the investigative field rather than the administrative field.

RAYMOND J. DRISCOLL

This agent entered the Bureau's service on April 28, 1941, and is an outstanding criminal investigator. He is an exceptionally aggressive agent and is well grounded in the Bureau's policies. He presents a very good personal appearance and has a mature, sound judgment. He has operated on special assignments and at

[REDACTED]

b6
b7C

This agent entered the Bureau's service on March 19, 1934, and has never been used on administrative assignments. He is considered a very good criminal investigator, and his talents are restricted to this field. It is not felt that he possesses any potential along administrative lines although he is interested in progressing in the Bureau's service in the investigative field. As the Bureau is aware, Agent [REDACTED] is but 5 ft. 3 in. in height and presently weighs 113 lbs. He has recently had a recurrence of an ulcer condition which might be aggravated by an administrative assignment.

CARL N. FREYMAN

This agent entered the Bureau's service on February 2, 1942, and since his arrival in the Chicago Office March 5, 1945, has been assigned almost exclusively to Security work. He is exceptionally well grounded in the Security field, and at present is being utilized in the Toplev Program. Although this agent is interested in progressing in the Bureau's service, he is more interested in advancement in the investigative field than the administrative field.

CLIFFORD A. GRILL

This agent entered the Bureau's service on November 30, 1936, and has served in a supervisory position at the Seat of Government and as an ASAC in the Buffalo Division. This agent is not interested in the administrative field.

JEREMIAH J. HURLEY

Agent HURLEY entered on duty with the Bureau May 27, 1940, and at the present time is engaged in the investigation of INTERNAL

SECURITY cases particularly in the Yugoslav field. This agent presents a very nice appearance and although interested in progressing in the Bureau's service, prefers assignments in the investigative field.

JOHN J. MATTHEWS

Agent MATTHEWS entered the Bureau's service on August 1, 1939, and has been particularly outstanding in the criminal investigative field. He has served as a Resident Agent and is well grounded in Bureau policy. Although Agent MATTHEWS is available for assignment and is interested in progressing in the Bureau's service, he prefers assignment in the investigative field.

[REDACTED]

Agent [REDACTED] entered the Bureau's service on December 16, 1940, and has had extensive investigative experience. He has served in the field as a supervisor of Selective Service cases in the Los Angeles Division. Although Agent [REDACTED] is interested in progressing in the Bureau's service, he is not interested in an administrative assignment but prefers the investigative field.

b6
b7C

ALBERT D. MEHEGAN

This agent entered the Bureau's service on March 20, 1922, and was recently awarded a 30-year key. Although Mr. MEHEGAN is interested in continuing his progress in the Bureau's service and is most willing to serve the Bureau here and in any assignment, it is felt that due to his age and length of service he should not be considered for administrative assignments.

ROY W. MOHRMAN

This agent entered the Bureau's service on March 18, 1941, and is one of the outstanding accountants in the Bureau. He has been afforded administrative training on the desk of the ASAC in the Chicago Office and possesses a definite potential in this field. He is interested in progressing in the Bureau's service.

and is interested in an administrative assignment. He presents an excellent personal appearance and is mature and businesslike in his mannerisms. He has been utilized to advantage by the Chicago Office in the training and development of new accountants, and it is felt he is of definite value to the Bureau in his present assignment.

[REDACTED]

Agent [REDACTED] entered the Bureau's service on December 9, 1940, and has spent the major part of his Bureau career in the criminal investigative field. He has not to date been utilized on any administrative assignment. Although this agent is interested in progressing in the Bureau's service, he has expressed a preference for assignment in the investigative rather than the administrative field.

b6
b7C

[REDACTED]

Agent [REDACTED] entered the Bureau's service on July 15, 1940, and resigned on September 30, 1946. He was reinstated on December 15, 1947. Although this agent is interested in progressing in the Bureau's service, he has expressed a preference for assignments in the investigative field. The Bureau is aware of the physical condition of this agent as indicated in my letter dated November 26, 1951. Although this agent's physical condition is greatly improved, it is not felt he should be given additional responsibilities at this time.

K. ROBERT SCHROEDER

Agent SCHROEDER entered on duty with the Bureau on September 24, 1934, and is considered one of the outstanding Bureau accountants. He has operated as a relief supervisor in the Chicago Division, and has been outstanding in his assistance in the training and development of new Bureau accountants. Mr. SCHROEDER served as a supervisor at the Seat of Government and is well grounded in the Bureau's policy. Although this agent is still interested in progressing in the Bureau's service, he has expressed a preference for assignments in the investigative field.

considerable number of major Bank Robbery cases in the most exemplary fashion. He is utilized as a relief supervisor on the Criminal Desk and possesses definite potential along administrative lines. This agent possesses a keen analytical mind and is interested in progressing in the Bureau's service along administrative lines.

[REDACTED]

This agent entered on duty October 7, 1935, and has served in numerous field divisions since that time. He operated as a supervisor in the field while assigned to the Jackson Division. Agent [REDACTED] presents an excellent personal appearance and is capable of representing the Bureau under all circumstances. Although this agent is interested in advancing in the Bureau's service along administrative lines, the majority of his experience has been in the investigative field and he prefers such assignments.

[REDACTED]

This agent entered the Bureau's service November 12, 1940, and is an outstanding agent in the investigative field. He has served as a supervisor in the field while assigned to the Newark Division. He presents a very good personal appearance and is well grounded in Bureau policy. Although [REDACTED] is interested in progressing in the Bureau's service, he prefers the investigative rather than the administrative field.

OTHER AGENTS FOR BUREAU'S CONSIDERATION

[REDACTED]

This agent entered the Bureau's service June 23, 1947, and was initially assigned to the Little Rock Division. He was transferred to the Chicago Division during May, 1948, and since his arrival in Chicago has been engaged in conducting investigations in the Applicant field, particularly in connection with investigations under the Loyalty Program. [REDACTED] served in the

DIRECTOR, FBI

RE: PERSONNEL ADVANCEMENT

Army as a Major and is a very mature individual with sound judgment. He is most meticulous about his work and is considered an outstanding investigator. He is extremely conscientious and produces an above-average volume of work. He has a quiet, pleasing personality and is highly regarded by the personnel in the Chicago Division. From a review of his work, it is felt he possesses a potential in the administrative field.

[REDACTED]

[REDACTED] entered on duty with the Bureau July 27, 1942, and is in Grade GS-12. He presents a very nice appearance as a Special Agent and seems to have an enthusiastic approach to the Bureau's work. He is an approved Bureau speaker and police instructor, and has done excellent work in both of these fields. He presently is assigned to road work territory in the immediate west side section of Chicago and has covered this area in a satisfactory manner, indicating that his contact work has been above average. I consider that he is qualified for training in the administrative field and I believe that he could be well utilized as a supervisor at the Seat of Government or as a Field Supervisor. He appears to possess good judgment and is mature and thorough. I feel that he could best be utilized in connection with assignments requiring contact with the general public as well as with police generally, and apparently his interest centers in the field of direct contact with outsiders. I consider that he is possessed of potential in the field of administration and executive responsibility. He is available for either general or special assignment. In addition, he has recently been made an Inspector Aide and has had the benefit of one inspection trip.

b6
b7c

[REDACTED]

This Special Agent entered on duty July 21, 1947, and is in Grade GS-12. At the present time, he is assigned to investigative matters within the general criminal jurisdiction of the Bureau. He is a dogged investigator and has shown signs of being above average in this field. I believe that he possesses the qualifications necessary for development as a supervisor and could be utilized either at the Seat of Government or as a Field Supervisor. He has a nice personality, dresses neatly and has the ability to meet the public easily and effectively. I believe that he is possessed of potential for development in administrative assignments. He is available for either general or special assignment.

DIRECTOR, FBI

RE: PERSONNEL ADVANCEMENT

JOSEPH A. HAGGERTY

Agent HAGGERTY entered the Bureau's service as a Special Agent on June 21, 1943. He had previously been employed by the Bureau in the Identification Division for a period of six years prior to his acceptance as an agent. He is well-grounded in Bureau policy and is interested in progressing in the Bureau's service. Agent HAGGERTY presents a good appearance and has a jovial personality. He is possessed of a keen analytical mind and is far above average in resourcefulness, force and aggressiveness. During his assignment in the Chicago Office, he has handled the most complex criminal matters and is especially well qualified to handle involved cases such as Antitrust matters which require patience and attention to pertinent detail. HAGGERTY is a qualified police instructor and is keenly interested in this phase of the Bureau's work. He has made excellent contacts with law enforcement agencies and has represented the Bureau well during the conduct of police schools. It is felt that this man can properly handle Bureau personnel. He is available for general or special assignment.

Freyman, Special Agent.

For your information your recommendation
is being considered at the present time at the
Bureau.

It is noted that the Agents assigned to
the above program in your office, including SA
Freyman, have been successful in developing not
only [redacted] but also [redacted] in the recent
past. The Bureau feels that this is an unusual
accomplishment on the part of these Agents. You
should advise the Bureau in the immediate future,
therefore, of your recommendation concerning any
commendatory action you feel is warranted concerning
SA Robert J. Wilson, who has worked with SA Freyman
on the above program.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: June 25, 1952

FROM : *Jm* SAC, ChicagoPERSONAL AND CONFIDENTIALSUBJECT: CARL N. FREYMAN
SPECIAL AGENT

b7D

Rebulet 6-13-52 captioned [redacted] Bufile 100-383944, requesting to be advised of the identity of the Special Agent responsible for the development and handling of this informant, together with specific details of his activity in this regard and also my recommendation as to commendation for this Special Agent.

Please be advised that SA CARL N. FREYMAN is responsible for the development and handling of this informant. Agent FREYMAN is a Grade 13 agent and has been working security work for approximately the past four years. Since the inception of the Bureau's TOPLEV program in September, 1951, he has been assigned exclusively to this work attempting to develop informants among high-ranking Communists. He has devoted much of his personal time to the study of Communist theory and at the present time has an excellent grasp of such. His work in connection with the TOPLEV program has been very capably handled and he has devoted a considerable amount of voluntary overtime in arranging interviews under this program. He recently has been assigned full-time to the handling and development of CG-5824-S, MORRIS CHILDS, a former national leader of the Communist Party and formerly District Chairman of District #8 of the Communist Party, Chicago, who it appears may be able to reactivate himself. Agent FREYMAN is intensely enthusiastic about his work, is a very hard worker and an excellent investigator.

b7D

[redacted] is a Negress, is presently 36 years of age and is a divorcee. She was a member of the Communist Party from approximately 1943 to 1947. She was first contacted by SA FREYMAN and another agent on May 26, 1951 with Bureau authority for possible use as a witness in a Loyalty of Government Employee-Fraud Against the Government case. During the interview she stated she had been a Communist Party member; that she dropped because of personal reasons in 1947, but that she still maintained her Communist beliefs. She gave the following reasons as to why she was a Communist:

JFM:OC

Director, FBI

RE: CARL N. FREYMAN, SA

1. Because she believed the Communist Party was helping her race.
2. Because she believed the Communist Party helped the trade union movement.

She further stated that in her opinion, especially after the election of 1948 in which TRUMAN promised a civil rights program and later failed to carry it out, democracy had failed in granting equal rights for everyone as guaranteed under the Constitution. She added that some progress in civil rights had been made in this country but said that as long as we have lynchings and the Ku Klux Klan she feels that the Negro will not have full civil rights. She added that if the FBI could prove the Party was insincere in the above points and that Communism could only come by revolution, she would then consider helping the FBI. During the several hours of conversation that followed, she indicated personal troubles with her husband, financial troubles, and also that she wanted to put her son in a Catholic school although she is not a Catholic.

Agent FREYMAN discussed the Communist Party line on the Negro question, the use of the trade union movement by the Communist Party to further its revolutionary aims, and quoted MARX and LENIN re revolution. It was also pointed out to her that the FBI had the responsibility of defending civil rights and very definitely were interested in any information indicating a violation of civil rights which would be given proper attention by the Bureau. Agent FREYMAN also brought out certain facts concerning the use of the Negro by the Communist Party in furtherance of the international and revolutionary aims of the Party. She was shown that evidence has been offered in courts and passed upon by juries which conclusively proves that the Communist Party is a menace to the security of the country and that Communists advocate and teach the overthrow of the government by force and violence. She was also provided with literature and agreed to meet the agent again for further discussion.

Director, FBI

RE: CARL N. FREYMAN, SA

Subsequently Agent FREYMAN made arrangements for informant's son to attend a Catholic school and even though informant's son did not actually enter this school, the informant was very appreciative of the agent's interest.

During the following nine months Agent FREYMAN, usually in company with other agents, recontacted this informant from time to time and provided her with additional literature, even though the informant said she was reluctant to assist the Bureau because of the fear of being exposed. Agent FREYMAN spent many hours with her, discussing the Party and Bureau security, but the informant was still reluctant to reactivate because of her fear for her personal security. Agent FREYMAN during this time had many telephone conversations with the informant and at her request saw her personally on numerous occasions to discuss her son and other personal problems, including her mother's illness and hospitalization. As a result of this friendliness and personal interest, she appeared to reach the point where she had trust in Agent FREYMAN.

Recently the informant advised Agent FREYMAN that she had been thinking over his remarks regarding the use of the Negro people by the Communist Party and had concluded that she should offer any assistance to the Bureau that she could give. At that time Agent FREYMAN suggested that she might become active in several Communist Party front groups after which she did, attending several small meetings. During this period small sums of money were paid to her covering her expenses. Finally, as a result of the many contacts made by Agent FREYMAN, the informant advised she would reactivate herself in the Communist Party if the Bureau would agree to pay her and provide maximum security.

On April 22, 1952 she was successful in re-registering in the Communist Party and since that time she has been attending Communist Party meetings and furnishing information to this office.

Director, FBI

RE: CARL N. FREYMAN, SA

It should be noted that the successful development and handling of this informant was due to the close personal contact of the agent and the friendliness he exhibited towards her, and the personal interest he took in her problems. It is my recommendation that Agent FREYMAN be granted a meritorious raise for his outstanding work in this case.

Remylet, 6-25-52, captioned "CARL N. FREYMAN, SPECIAL AGENT", and Bulet, 7-2-52, captioned "COMMUNIST PARTY, USA-TOPLEV; INTERNAL SECURITY-C", setting forth the fact that these agents, who have been working on the Toplev Program, have been successful in developing CG-5824-S and [REDACTED] in the recent past, and requesting my recommendation concerning any commendatory action I feel is warranted concerning Special Agent [REDACTED].

This is to advise that I have been following very closely the activities of these two agents in connection with the Toplev Program and am pleased with their efforts to date. I am convinced that their success so far has been due principally to their unlimited enthusiasm for their work and their loyalty to the Bureau. These agents have worked very hard preparing themselves with the necessary background for this program, have made great personal sacrifices in working long and unusual hours in conducting surveillances and interviews, and have maintained their optimism in the program in spite of the many rebuffs they have received.

I believe that Special Agent [REDACTED] has done a very outstanding job in personally developing [REDACTED] as an informant. This informant has an excellent potential if he can reactivate himself in the Communist Party. I have hesitated to date in recommending Special Agent [REDACTED] for commendation for this work, not because I believe he is not deserving of such commendation, but because I desire to see whether or not [REDACTED] is successful in reactivating himself in the Communist Party. The degree to which this informant can reactivate himself will determine the type of commendation Special Agent [REDACTED] deserves. Therefore, unless the Bureau desires otherwise, I will defer any recommendation concerning Special Agent [REDACTED] to a later date.

Dear Sir:

It is observed that during the course of the recent inspection of the New York Field Office you made a grade of 80 on the Manual of Regulations.

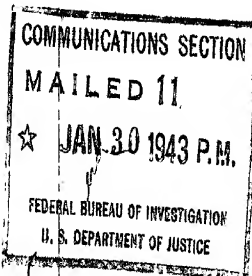

This, of course, is an unsatisfactory rating and reflects insufficient information concerning the Bureau's regulations. This is a condition which you must correct. You should begin immediately a systematic study of the Bureau's manuals so that you will be able to pass any future examinations.

It is obvious that an Agent cannot perform his duties satisfactorily unless he has a proper knowledge of the fundamental rules and procedures. The Bureau must insist that in the future you attain the required standard.

RE: SPECIAL AGENT CARL N. FREYMAN
SPECIAL AGENTS FOR SIS ASSIGNMENT

Dear Sir:

Reference is made to Bureau letter addressed to all Special Agents in Charge dated July 10, 1944 captioned SPECIAL AGENTS FOR SIS ASSIGNMENT.

Please be advised pursuant to the instructions of the Bureau in the above referenced communication, Special Agent Carl N. Freyman of the New York office, who communicated a preference for such an assignment, was interviewed extensively on August 19, 1944 by Jerome Doyle of the New York SIS office along the lines desired by the Bureau.

From a review of Special Agent Freyman's personnel file, it is to be noted that his ability to work without supervision is rated as average at best. From personal observation, during the interview with this Agent, it is believed that he has but a fair ability to develop confidential informants and would only make a fair impression on high-ranking officials he might meet. He is somewhat hesitant in his expression and his investigative experience for the past two years has been confined to a technical surveillance.

In view of the foregoing, it was not believed that this Agent is presently qualified for foreign assignment and no comment will be made concerning the eleven items in the Bureau's letter of reference.

This employee makes a good personal appearance, he has a pleasant personality but seemed slightly nervous. He is at least average in intelligence and appeared to be interested in the Bureau's work.

During the conversation with him he mentioned he has been assigned to a Sutex in New York practically since his entrance in the Bureau. He has had very little if any investigative experience. He should be assigned to criminal investigative work so that the Bureau can determine his ability. There was no indication in his file or his record in the Bureau whether or not he can develop into an investigator. Status - Good.

Personal and Confidential

Dear Mr. Hoover:

I am writing to advise you of a personal problem concerning which I respectfully request your personal consideration.

I have received, as of January twenty-fifth, a transfer to the Norfolk Field Division, and February twelfth has been set as the tentative date of my departure from New York. Reluctant though I am to burden you and the Bureau with a request for any change in assignment made personally desirable through strictly personal and family matters, I do feel impelled, in this instance, to request that consideration be given to a cancellation of this transfer and to a substituted transfer to a mid-western field division in closer proximity to my home.

Two months ago, Mrs. Freyman's father, residing in Le Mars, Iowa, was taken seriously ill. Subsequent examination by local doctors and the Mayo Clinic revealed that he has lost completely the vision of one eye, and that it is extremely likely that he will similarly lose the use of the other eye, because of persistent ulcerous infections caused by diabetes and a heart ailment. The attending physicians have advised that his condition will require constant physical care, and that he will be unable to return to his business.

This situation has necessitated Mrs. Freyman's departure from New York two weeks ago. Letters received from her since that time indicate that the doctors insist upon her continued presence in Le Mars for an indefinite and extended period of time. With the present impossibility of obtaining either nursing service or business assistance, my wife finds herself confronted with very serious problems, which can be assumed only by her because of the exigencies of the war. I know that the demands presently placed upon Mrs. Freyman are severe, and although she is desirous of meeting the situation as effectively as possible alone, we both realize that there will be many occasions when it will be necessary for us to consult personally regarding her father and his affairs.

Only through a transfer which would make me more readily available during this family emergency will it appear possible for me to render to Mrs. Freyman the aid and assistance which I know she will require, and which I feel is the minimum of my obligation to her. For your information, I respectfully suggest that the following offices are within a five-hundred mile radius of Le Mars: Omaha, St. Paul, Chicago, and Des Moines, the latter being my office of preference.

For your information, I may state that I have been assigned to east coast offices for the past three years, and have in the recent past expressed my willingness for assignment in foreign service. I make this request solely because family illness has brought upon Mrs. Freyman and upon me an urgent situation where my help and advice will be essential, and where a separation of over twelve hundred miles would make such help practically impossible. Should my request be favorably considered, I shall be very grateful.

Very truly yours,

Carl N. Freyman

PERSONAL AND CONFIDENTIAL

Reference is made to your personal and confidential letter dated January 4, 1945, in which you advise that the above named Special Agent has been afforded Moot Court training in your office and that it was noted that the objectionable mannerisms which he had previously manifested were still present, although he has been making some progress in overcoming them.

It is desired that Special Agent Freyman be afforded additional Moot Court training until such time as he has completely eliminated all such mannerisms concerning his ability to testify. The Bureau is desirous of receiving a further report from you concerning this matter not later than April 20, 1945.

Re: CARL N. FREYMAN, SPECIAL AGENT;
ABILITY TO TESTIFY

Dear Sir:

Reference is made to Bureau letter dated December 4, 1944 regarding observations made of the above Agent during In-Service Moot Court. The letter stated "it was stated by a Bureau Official that he appeared to be slightly nervous, that he twisted his hands and moved his head". Agent Freyman participated in Moot Court proceedings of the New York Office on November 12, 1943 at which time he received a rating of "good".

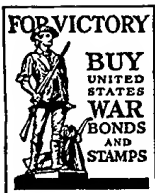

On January 4, 1945 Agent Freyman was again afforded Moot Court training. He presented a neat appearance; was well prepared and testified in a satisfactory manner. A slight nervousness was exhibited at the outset of his testimony but this rapidly dissipated. He had no difficulty at all with his hands while testifying. On two or three occasions, it was observed, however, that he seemingly forgot himself and would apparently shake his head from side to side for emphasis purposes. It was noticed, however, that on these few occasions he was aware of what he had done and would discontinue the practice until he would again forget himself.

The contents of reference letter were discussed with him prior to his second appearance at Moot Court and the objectionable mannerisms noted in reference letter apparently have been partially overcome.

On his second appearance at Moot Court Agent Freyman received a rating of good plus since it is believed that he is making progress.

Very truly yours,

E. E. CONROY

ABILITY TO TESTIFY

Dear Sir:

Reference is made to your personal and confidential letter dated January 24, 1945 requesting that the above agent be afforded additional Moot Court training.

This is to advise that Agent Freyman again participated in Moot Court proceedings on February 7, 1945 after reference letter had been discussed with him. He presented a neat appearance, was well prepared and testified in a highly satisfactory manner. He appeared to have corrected his nervous tendencies and he had no difficulty in properly disposing of his hands and has apparently eliminated the mannerism of shaking his head at times for purposes of emphasis.

It is believed that the above agent has made considerable progress and is now qualified to testify in court with credit to himself and the Bureau. He has made a conscientious effort in overcoming the difficulties which were observed while attending In-Service Moot Court.

ANNUAL EFFICIENCY REPORT

Attention: Assistant Director W. R. Glavin

Dear Sir:

Notes changed
In accordance with my telephonic conversation with Assistant Director W. R. Glavin on March 8, 1945, this office is changing the date of the Transfer Efficiency Report concerning the above-mentioned agent in order that this report might constitute his Annual Efficiency Report.

It might be noted that Agent Freyman was transferred from the New York Field Division to the Chicago Field Division recently, and a Transfer Efficiency Report was submitted covering the period from April 1, 1944 to February 15, 1945. This report has been reviewed, and it is felt that it contains the proper information that might constitute an annual report covering the efficiency of Agent Freyman.

Dear Mr. Fregman:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Marine Hospital, Quantico, Virginia, on February 16, 1942.

This report reflects the following physical defects:

Defective vision of right eye 20/20-1 - left
eye 20/30; corrected to 20/20 in each eye.

The Board of Examining Physicians makes the following recommendations:

Vaccination for smallpox.
Inoculation for typhoid.
Inoculation for tetanus.

It reports that you are capable of performing strenuous physical exertion, and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

For your information, it was determined during this examination that your blood is International Type "O".

of the Security - Major Groups Squad due to the reorganization of security work in the Chicago Office in accordance with Bureau regulations.

SA [] presents a mature, neat appearance, has a pleasing personality, and is extremely enthusiastic, aggressive, industrious, and conscientious in his work. He is an excellent leader of agents, having the ability to cause agents to exert their best efforts in the work they are doing. He has been a good trainer of agents in connection with the supervisory work he has performed in this office and has the ability to cause agents to understand the Bureau rules and use these in the execution of their duties. He has clearly demonstrated administrative and executive ability and it is believed that he would be able to handle the duties of the supervisory position for which he is recommended in a manner which would bring satisfaction to himself and credit to the Chicago Office and the Bureau. SA [] has definite possibilities for further advancement in Bureau work, is completely available and is interested in advancing in the Bureau.

b6

CARL N. FREYMAN

SA CARL N. FREYMAN entered on duty as a special agent on February 2, 1942. He has served in the Newark, New York and Chicago Offices. He has had considerable experience in both the criminal and security fields. For about the past six years his work has been exclusively in the security field in the Chicago Office, and during this period of time he has demonstrated his ability to handle any type of case in the security field. SA FREYMAN has an unusual knowledge of Marxism since he has read extensively pertaining to Communist ideology. He is always energetic, enthusiastic, and industrious in his work. SA FREYMAN is mature of judgement, has a friendly personality, is a morale builder among agents, and at all times has the interest of the Bureau in mind in connection with the conduct of his work. He has had experience as a relief supervisor, and during the period from the latter part of July, 1954 until October 18, 1954 was the Acting Supervisor of Squad 11. Although supervision on a full-time basis was rather new to him, he has done an entirely adequate job in this supervisory capacity. SA FREYMAN is presently in grade GS-13. He is available for any type of assignment.

Director, FBI

Re: SUPERVISORY ORGANIZATION
CHICAGO DIVISION
PERSONNEL MATTER

SA [] entered on duty as a special agent on January 3, 1944, and prior thereto entered on duty as a clerk on July 1, 1940. He is presently in GS-13. He was approved as a relief supervisor on July 2, 1954 and since that time has received extensive training in administrative and executive procedures in connection with the operation of Squad 9. SA [] has had varied experience in the Bureau in both the criminal and security fields. His investigations reflect mature judgement and capable handling. He has regularly demonstrated his ability to comprehend and properly investigate the more complicated cases. He has a thorough grasp and understanding of Bureau problems and procedures. He can make decisions quickly which are correct decisions, and are consistent with the problems at hand. He continues to be interested and ambitious to progress in the Bureau either in the field or at the seat of government, and has expressed an interest in advancement along administrative lines. It is considered that SA [] can capably handle the desk for which he is being recommended. SA [] attitude has always been excellent. He is dependable, cooperative, and loyal. His enthusiasm is contagious. He has always been willing to do at least his share in connection with the work load of the Bureau. He has the necessary initiative to undertake the necessary action in any circumstances.

The above figures for case load are for October 1, 1954, while the number of agents assigned to each squad is for October 18, 1954. The number of agents listed in the above tabulation does not include the supervisors.

SQUAD 3 (SECURITY - COORDINATION)

b7E

The supervisor of this squad supervises the following classifications: 121, 135, 138 and 140. He is responsible for the supervision and development of security informants although many of the cases involving security informants and PSI's are assigned to agents on the various security squads. He also supervises the development of such informants in resident agencies. He is responsible for the coordination of security work of all security squads. All teletypes and airtels pertaining to matters handled by any of the security squads pass over this desk irrespective of whether they are incoming or outgoing communications. Any communications dealing with policy matters also pass over this desk as do all "June" communications. The Coordinating Security Supervisor is also responsible for Detcon, Detcon Searches, Executive Order 10501, liaison with CIA, plant informant indices, Prodip, Prosab, security informant indices, security informant program, security library, Toplev, war plans, and administration of the physical condition of the squad room. This supervisor also supervises all phases of technical matters, including technical service contacts.

Six of the agents presently assigned to this squad are engaged full time in connection with the security informant and Toplev programs. A seventh agent has been recommended to the Bureau for the security informant program. These agents, devoting full time to informant matters, are responsible primarily for informant development in fields where informant coverage is most pressing, and other agents assigned to the various security squads continue to have a responsibility for the development of security informants in their respective fields.

SQUAD 8 (SECURITY - MAJOR GROUPS)

This supervisor has the responsibility for the supervision of the 2 - Export Control Act, 3 - Overthrow of Government, 14 - Sedition, 40 - Passport and Visa, 44C - Civil Rights (C), 61 - Treason, 96 - Alien Employment in Aircraft Industry, 97C - Registration Act (C), 98 - Sabotage, 100 - CP, USA; IS and SM - ISL, SWP, LSL, PPA, SYL, LSC; IS - C (Front Groups, Front Group Key Figures, CP

Agents on this squad also have assigned to them cases involving security informants and potential security informants, which cases, however, are supervised by the Coordinating Security Supervisor. These agents are responsible for the handling of informants pertinent to the squad, the development and replacement of such informants if such informants should cease to be active, and for the development of additional informants pertinent to the work of the squad as needed but consistent with the other work assigned to them. This supervisor also supervises the preparation of annual reports on security index subjects pertinent to the squad, and verifications necessary on security index subjects pertinent to the squad.

SQUAD 9 (ESPIONAGE)

The supervisor of this squad is responsible for the following:
65 - Espionage, 97 - (Foreign) Registration Act, 100 - IS - Foreign Language Field, 105 - IS - National Tendency, 108 - Foreign Travel Control, 109 - Foreign Political Matters, 110 - Foreign Economic Matters, 111 - Foreign Social Conditions, 112 - Foreign Funds, 113 - Foreign Military and Naval Matters, 117 - Atomic Energy Act, Administration of Physical Condition of Squad Room.

This letter is being submitted to the Bureau to advise of the outstanding performance on the part of six agents of this office in locating [redacted] at his hideout in Chicago. For the information of the Bureau, [redacted] has been missing and in underground status since June, 1951. Prior to going underground [redacted] was a CP official in Illinois, having served for many years as the Downstate Organizer for the CP, and from all indications is a well-trusted comrade. He is at this time considered an important functionary in the CP underground and through the efforts of IP-2930 it was recently established that [redacted] is the superior of [redacted] who is the organizer for the CP in Indiana and Kentucky and who is a Smith Act subject of the Indianapolis Office. [redacted] is in underground status, residing in Chicago. [redacted] has likewise been referred to as a regional organizer of the CP and from the information developed through a Minneapolis informant it is apparent that his territory covers several states, including Indiana, Illinois, and Minnesota in the midwest area. [redacted] location will undoubtedly lead to the location of other underground functionaries in contact with him. Previous experience of this office with [redacted] on surveillances reveals that he is very surveillance conscious and takes numerous security cautions.

The Minneapolis Office advised by telephone, October 24, 1954, that HANDEL left Minneapolis aboard the Burlington Zephyr, scheduled to arrive the late evening of October 24, 1954 in Chicago. Plans were immediately made to cover his point of arrival in Chicago, the Union Station, in an effort to determine his present residence in Chicago. In this connection

the surveillance was under the personal supervision of Acting Coordinating Security Supervisor [REDACTED] and Supervisor CARL A. REYMAN. The Union Station is a complex area to cover on a surveillance, having numerous exits, and plans were made in the station for a full one and one-half hours setting up the surveillance to discreetly take [REDACTED] out of the station when he arrived. [REDACTED] arrived on time and was identified by agents on the surveillance. [REDACTED] thereafter left the Union Station and proceeded on foot for a distance of approximately twelve blocks to a point in the loop area in Chicago where he entered the subway system. In traveling this twelve blocks [REDACTED] exercised extreme security caution in an effort to determine if he was under surveillance. Agents on the surveillance were instructed that the surveillance must be extremely discreet inasmuch as a Minneapolis informant was involved. In spite of the extreme cautionary measures occasioned by the subject, he was successfully surveilled through the ingenuity of the agents on the surveillance and placed on the subway system. Thereafter, through the use of handle-talkies concealed in detector-phone brief cases it was possible to get a number of agents into the subway system in order to surveil [REDACTED] further. Prior to boarding the subway [REDACTED] again exercised extreme security caution by letting several subways go by although he was making an effort to appear that he was going to board each succeeding one. The subject finally did and a subway and four agents were able to discreetly get on the subway with him. These four agents were SA's [REDACTED] and [REDACTED]. Thereafter the subject rode the subway to Halsted and Lura Streets where he again exercised considerable security precaution in an effort to detect a surveillance. For a brief period he went into a lunch room and thereafter reappeared on the street to again look over the situation. The four agents were successful in continuing the discreet surveillance and thereafter [REDACTED] was observed to abruptly hail a passing cab and proceed in a south-bound direction. The agents had no transportation available to them and they commandeered another cab passing by and successfully surveilled the cab [REDACTED] was in to a point in the 600 block on South Yale Avenue, Chicago. This was approximately 1:00 a.m., October 25, 1954. Due to the neighborhood the agents could not press further to determine the exact residence entered by [REDACTED] although the general area was observed. Through discreet surveillance later on October 25, 1954, the residence of [REDACTED] was established at the afore-mentioned address under the alias of [REDACTED].

In my opinion the above agents did an outstanding job on a very difficult underground figure. It was only through their ingenuity and

resourcefulness that they were able to accomplish this. While it is true that Minneapolis was able to give the Chicago Office the lead resulting in [redacted] location in Chicago, it is felt that the surveillance from the railroad station to his ultimate residence was a most difficult operation. The agents, of course, were highly enthusiastic concerning their success and I am personally very pleased with their efforts. Due to the location of [redacted] it was subsequently possible on October 27, 1954 to develop an anonymous source of known reliability concerning the personal effects of [redacted] at his hideout. A lookout was likewise established across the street to note the comings and goings of [redacted] to establish a pattern of activity, as well as to note what visitors he may have. The ground work for the development of the anonymous source was laid by SA's [redacted] and [redacted], who had also participated in the successful surveillance the previous evening, October 26, 1954. SA's [redacted] and [redacted] assisted SA's [redacted] in the development of this source. Considerable information was obtained concerning CF firm matters in the possession of [redacted] and this information has been photographed and is being processed at this time. Due to a time element involved, the development of this source was curtailed but it is available on a continuing basis based on present information. The results of this anonymous source will be fully exploited by the above agents on a continuing basis and should yield valuable information. It is anticipated that this source will again be utilized on October 31, 1954 when [redacted] will be meeting with [redacted] away from his residence.

b6
b7C

The above is being brought to the attention of the Bureau to reflect the outstanding performance of the above six agents, and it is recommended that they receive a letter of commendation from the Director for their fine work. It is not believed necessary to send letters of commendation to Supervisors [redacted] or REXMAN, although they were directly responsible for the organization of this successful surveillance, because each already has a great sense of personal satisfaction for having accomplished this particular objective. The Bureau will be kept advised of all information obtained from the above source as soon as that information is available.

Dear Mr. Freyman:

~~It has recently come to the attention of the Bureau that in the Security Matter case involving [redacted] it was determined in September, 1954, that certain facts set out in a report of the Chicago Division dated February 25, 1954, were not correct but an amended report was not submitted until December 21, 1954. This matter was under your supervision after October 15, 1954, and you were derelict in not seeing to it that the amended report was promptly submitted.~~

You will be expected to exercise better judgment in the performance of your supervisory duties in the future and to see to it that such matters are afforded prompt attention thereby making it unnecessary for the Bureau to communicate with you again in this regard.

Very truly yours,

Dear Mr. Freyman:

It is indeed a great pleasure for me to advise you at this time of the approval of a cash award in the amount of \$150.00 in recognition of the outstanding calibre of your services in connection with the trial of Smith Act subject Claude Mack Lightfoot. The payment of this award must await the issuance of a new Incentive Awards Plan by the Department to carry out the provisions of Title III, Public Law 763, 83rd Congress. However, a check in the amount of \$150.00, less withholding tax, will be forwarded to you in the near future.

I am aware that your untiring efforts in the preparation of this case for trial and your profound knowledge of Marxism and Leninism were of invaluable assistance to the prosecuting attorneys. The verdict of guilty returned in this case is most assuredly a reflection of your exemplary performance. You should certainly take pride in this exceptionally fine piece of work.

Sincerely yours,
J. Edgar Hoover

SUBJECT: CLAUDE MACK LIGHTFOOT, was.

SMITH ACT of 1940
(OO: Chicago)

DATE: January 27, 1955

PERSONAL & CONFIDENTIAL

PURPOSE

To recommend a meritorious increase in pay for SA CARL N. FREYMAN and separate letters of commendation for SA's [redacted] and [redacted] for outstanding performance in connection with the recently concluded trial of the captioned subject.

DETAILS

As the Bureau is aware, LIGHTFOOT was indicted on May 14, 1954 at Chicago for violation of the Smith Act of 1940. This was the first indictment obtained under the membership clause of the Smith Act. LIGHTFOOT was apprehended by Bureau agents on June 26, 1954 and thereafter arraigned and trial date set for January 10, 1955 in United States District Court, Northern District of Illinois, at Chicago, Illinois. The prosecution in this case was handled by Special Assistant to the Attorney General [redacted] and Assistant United States Attorney [redacted] assigned to the United States Attorney's office at Chicago. SAAG [redacted] requested that an agent be designated to be seated at the counsel's table during the course of the trial, and thereafter the Bureau approved the use of SA FREYMAN to sit at the counsel's table and approved the use of SA [redacted] as an alternate in the event SA FREYMAN was not available.

The trial of LIGHTFOOT commenced January 10, 1955 as scheduled and the trial was expected to take at least six weeks due to the number of witnesses involved and the expected use of considerable Marxist classics and material in connection with the trial. From the outset, the trial proceeded much more rapidly than anticipated, which necessitated changes in the plans of the attorneys prosecuting the case as well as the calling of prospective witnesses.

Re: CLAUDE MACK LIGHTFOOT T
IS - C, SA 40

A guilty verdict was returned, however, by the jury on January 26, 1955 and sentencing has been set for February 15, 1955.

Hereafter will be set forth in greater detail the accomplishments of the above-mentioned agents in connection with this trial consistent with the recommendations being made.

SA CARL H. FREYMAN
SA [REDACTED]

SA FREYMAN is the supervisor of Security Squad No. 2 of the Chicago Office, and the case of LIGHTFOOT is assigned to that squad. SA FREYMAN has a profound knowledge of Marxism and Leninism, and is well informed concerning the strategy and tactics of the Communist Party and the functionaries in connection therewith.

Commencing December 1, 1954, SA FREYMAN, in conjunction with SAAG [REDACTED] worked exclusively in preparing this case for trial. Due to the fact that this was a new type case, considerable effort was made to build the case from an evidentiary standpoint into as strong a position as possible consistent with available evidence at hand. SAAG [REDACTED] requested of this office that approximately 300 exhibits be located for possible use in the trial, and these exhibits were obtained from Chicago files and local sources in the Chicago area, and in this manner all but 7 were located in the district and the other 7 were obtained from the Bureau and other offices. During this time SA FREYMAN devoted an average of 5 hours voluntary overtime per day and generally exhibited an extremely aggressive, industrious attitude toward this case. Following SA [REDACTED] return from an inspection the latter part of December, 1954, he also assisted in the preparation of evidence and witnesses for the trial.

b6
b7C

Commencing January 3, 1955, SA's [REDACTED] and FREYMAN were in daily consultation with AUSA [REDACTED] and SAAG [REDACTED] in final preparations for the trial and interviewing of prospective witnesses. Due to the unfamiliarity of AUSA [REDACTED] with the subject of Marxism-Leninism, he requested

Director, FBI

Re: CLAUDE MACK LIGHTFOOT
IS - C, SA 40

that this office make available to him certain basic Marxist works if such were available. These were made available to him for study, and SA's FREYMAN and [] on their own time and at AUSA [] request, discussed with him these works in order that he could more effectively at the trial present and introduce into evidence these Marxist classics. AUSA [] was deeply appreciative of these efforts.

b6
b7C

The trial commenced on January 10, 1955 and the Government rested its case on January 20, 1955 without being able to introduce all the evidence they desired to in the first instance. During the period from January 10 to 20, 1955, SA's FREYMAN and [] followed the examination of witnesses in an exceedingly close fashion and on each day after court was recessed the testimony was gone over by both agents in an effort to bolster the witnesses. Certain research had to be done on each day in order that certain paragraphs could be extracted from basic Marxist works for introduction at the succeeding day's trial. In these instances the above agents were exceedingly helpful due to their familiarity with Marxist classics in drawing the attorneys' attention to the particular sections of the Marxist classics they were concerned with. Due to the speed of the trial, this required a continual reappraisal of the witnesses needed. Due to these two agents' complete familiarity with the type of information a witness could be expected to testify to, the attorneys discussed with them following the recess of the court each day, the witness sheets that had been prepared, and based on the agents' observations concerning these witnesses, various changes were made in the witness sheets to assist in the following day's interrogation. Of particular help throughout the trial was the agents' experience concerning the CP's tactics and strategy, which was of invaluable assistance to the prosecuting attorneys. When the Government rested its case on January 20, the defense, just prior to the recessing of the court, entered a motion for a directed verdict of acquittal. At this point the Government attorneys considered themselves to be in an extremely critical position due to the fact that they had not been able to get in evidence certain Marxist books and classics. The presiding judge requested the Government attorneys to submit a brief the following morning at 9:00 a.m., January 21, 1955, showing cause why the defendant's motion should be denied. This was

Director, FBI

Re: CLAUDE MACK LIGHTFOOT
IS - c, SA 40

an unexpected development and necessitated an extreme amount of work. The above two agents, SAAG [] and AUSA [] commenced work immediately following recess of the court on January 20 toward the preparation of the brief and worked continually until 6:00 a.m. on January 21, 1955 in conjunction with stenographers of the Chicago Office. SAAG [] advised that the agents' observations and help which were requested by him in connection with this brief were invaluable to the Government's case. The brief was submitted at 9:00 a.m., January 21, 1955, and thereafter the presiding judge scanned the brief and demurred making a decision on the motion which averted, at least at this point, any acquittal.

b6
b7c

At the conclusion of the trial when a guilty verdict had been returned, SAAG [] had extreme praise for the assistance given to him by the above two agents during the course of the trial. [] emphatically made the statement that the invaluable assistance rendered to him and AUSA [] during the course of the trial was directly responsible for the success, and particularly pointed out that only because of SA FREYMAN's extensive and profound knowledge of Marxism and his great familiarity with basic Marxist works was a serious set-back averted. [] stated that the verdict of guilty was directly traceable to the efforts of SA FREYMAN assisted by SA [] throughout the trial. During the course of the trial, SA FREYMAN and SA [] in addition to assisting Government attorneys, also prepared the necessary correspondence on a daily basis keeping the Bureau advised of the developments thus far reached in the case.

b6
b7c

Through my personal observations of the above two agents as well as the comments expressed to me by SAAG [] and AUSA [], I feel that these two agents did an outstanding job in connection with the successful prosecution of this case. They reflected with great credit on the reputation and ability of the FBI.

SA []

SA [] is assigned the case on the captioned subject. The Bureau approved the use of SA [] to handle

Director, FBI

b6
b7C

Re: CLAUDE MACK LIGHTFOOT
IS - C, SA 40

exhibits throughout this trial which consisted of in excess of 300 exhibits. SA [] also served during the course of the trial as liaison between the United States Attorney's office and the Bureau office in Chicago. In addition to handling the vast number of exhibits, he greatly assisted in the lining up of witnesses in accordance with the desires of the prosecuting attorneys. He was responsible for seeing that the security of the prospective witnesses was protected and for seeing that the witnesses were on hand as needed and as directed by the prosecuting attorneys. He was also responsible for the preparation of a great number of communications on this case prior to and during the course of the trial. He handled them with dispatch and thoroughness and contributed a great deal of his own time in seeing that these matters were properly handled. The prosecuting attorneys, as well as SA FREYMAN, commented very favorably on his contribution prior to and during the trial, particularly with regard to his effective liaison work at the Chicago Office. I feel that his efforts were outstanding in this regard.

SA []

SA [] primary responsibility prior to and during the course of the trial was in the lining up of prospective witnesses and transferral to the Court House as they were needed in the course of the trial. This required extremely sound judgment and in some instances prompt initiative on his part to meet the demands of the prosecuting attorneys. As stated before, this trial did not go as originally contemplated and the sequence of witnesses was disturbed from the outset. This required effective liaison with all witnesses in order to have them on hand at anytime. In many instances witnesses had to be kept available to come on the stand with only a few minutes notice. He handled this assignment in an outstanding manner. SA [] in addition to the above, spent approximately three days with the principal local witness offered by the Government, []. This witness was very nervous and SA [] succeeded in talking with him over a period of time in calming him down and assisting the Government attorneys in going over his expected testimony. The net result was that the informant was an effective witness due to the fact that SA [] had considerable influence with him and exercised it. This agent

b6
b7C
b7D

Director, FBI

Re: CLAUDE MACK LIGHTFOOT

assisted Government attorneys in preparing the informant for testimony and in the preparation of the witness sheet in connection with the testimony expected of him. The attorneys, particularly SAAG [] were deeply appreciative of the valuable service that SA [] was able to render in this regard. His performance throughout was highly creditable and reflected well upon the reputation of the Bureau.

SA []

Much credit for the successful conclusion of the LIGHTFOOT case must be given to Supervisor []. During the months preceding LIGHTFOOT's apprehension, the investigative activities which led to the successful location were under his direct supervision. During the time that this case was prepared for trial, [] was the coordinating supervisor of all security work in the Chicago Office. He is largely responsible for giving the necessary direction and the assignment of the necessary personnel to be certain that all possible evidence was available for trial.

In view of the excellent judgment and attention he gave this important case, it is my recommendation that he be highly commended by the Director.

b6
b7C

RECOMMENDED ACTION:

I feel that the successful prosecution of this case, which is the first case of its type tried in the United States under the membership clause, reflects with great credit upon the work of the Bureau and individually on the accomplishments of the agents mentioned above. I have closely followed this prosecution and have been in an excellent position to observe the daily occurrences of this trial and the performance of the agents cited above. The comments of both SAAG [] and AUSA [] have been set forth in this letter and I feel they are sincere, well-deserving statements.

In view of the above I recommend that SA FREYMAN, because of his outstanding contribution to this case, be awarded a meritorious increase in salary. His outstanding performance is a reflection on the type of agent that he is

Director, FBI

Re: CLAUDE MACK LIGHTFOOT
IS - C, SA 40

and has been for the Bureau. His profound knowledge of Marxism which greatly assisted in this trial was a direct result of a great deal of self-study on his part in the past which has resulted in furthering the Bureau's accomplishments.

b6
b7C

I further recommend that individual letters of commendation be sent to SA's [redacted] [redacted] and [redacted] for outstanding assistance in connection with this matter as has been set forth above. Their combined efforts were deeply appreciated by the prosecuting attorneys and they commented most favorably concerning their accomplishments.

Dear Mr. Freyman:

The Bureau has noted you approved a channelizing memorandum dated April 20, 1955, in the Internal Security case involving Chicago Women for Peace which set forth erroneously that a confidential informant supplied information on December 15, 1955, concerning a meeting held January 27, 1955. If you had detected this inconsistency when you reviewed the memorandum you would have been in a position to determine that the confidential informant supplied the information on February 15, 1955.

It will be necessary for you to discharge your supervisory responsibilities with more care and thoroughness in the future.

Dear Mr. Freyman:

During the recent inspection of the Chicago Office an instance of delayed investigation was noted in the Security Matter case concerning [redacted]. In addition, numerous delays were noted concerning channelizing data received from confidential informants. The above delays occurred in cases under your immediate supervision and could have been avoided had you vigorously followed the agents to whom these cases were assigned.

A review of a number of cases under your supervision revealed a high percentage contained errors of form attributable to agents of your office.

In the future you will be expected to tighten up your supervision and exhibit a greater degree of care and attention to detail so that it will not again be necessary to bring such derelictions to your attention.

Comments Made

Rebulet September 2, 1955 referring to report of SA dated August 15, 1955 at Chicago. Bulet commented on excellence of rerep and high quality of information contained therein relating to national underground apparatus of the Communist Party (CP) and midwestern regional apparatus of CP underground. The Bureau requested my observations as to commendation for personnel responsible for development of information contained in this report as well as those who actually prepared the report.

Observations

Shortly prior to my arrival in the Chicago Division, Security Squad #1 (Underground Squad) was established pursuant to Bureau instructions. The penetration of the CP underground by the office until creation of this squad on approximately October 15, 1954 was highly unsatisfactory. The positive results obtained during the past ten months had been recognized by the Bureau on a number of occasions in the form of commendations by the Director to key personnel. The satisfactory results obtained, I feel, are culminated by the facts set forth in rerep of SA and warrant consideration under the Bureau's Incentive Award Program.

Re: CP, USA

UNDERGROUND OPERATIONS
CHICAGO DIVISION
INTERNAL SECURITY-C

This effective penetration was caused by two factors:

First, the effective, careful planning, and outstanding investigative work performed by personnel on the Underground Squad as a group effort over a substantial period of time which performance has involved the overcoming of unusual difficulties. Specifically, many long hours, day and night, weekends included, without regard to personal convenience, were spent by the agents. During the ten month period this squad averaged approximately two hours twenty minutes per day voluntary overtime to get the job done. Substantial personal risks were involved in developing approximately twenty-five anonymous sources contacted on over two hundred separate occasions. All were conducted without incident reflecting exceedingly good judgement in planning and executing this unusual investigative technique. Many physical surveillances were conducted on key underground couriers leading to other underground functionaries. These were necessarily conducted with full security in view of the extreme security conscientiousness of subjects involved.

Secondly, the high level information furnished by CG 5824-S. This informant throughout this period was of considerable assistance in correlating our underground activities. In addition this security informant is the source of a high volume of information contained in the report of SA [redacted].

b6
b7C

Results Obtained

The Bureau's penetration of CP underground activities in this area has been fairly complete. The apparatus and regional structure has been completely identified and the large number of missing functionaries in the Chicago area as of September 1, 1954, has been reduced to two, [redacted] and [redacted] and [redacted] Considerable portion of background of [redacted] and [redacted] reconstructed, residences established during varying periods in 1955, and cars being utilized by them identified.

RE: CP, USA
UNDERGROUND OPERATIONS
CHICAGO DIVISION
INTERNAL SECURITY-C

The above includes all personnel on the Underground Squad except SA JAMES E. BROWN [redacted] and [redacted] who, while their services had been highly satisfactory, have not been assigned to the squad for a sufficient length of time to have made a major contribution to this joint effort.

B) Regarding CG 5824-S

This valuable informant without a doubt has made substantial contributions to our success. He is handled most capably by SA [redacted]. Bureau attention is directed to Chicago letter August 31, 1955 wherein SA [redacted] was recommended for reallocation to GS 13 based on his outstanding performance. I am hopeful that the Bureau will favorably consider my recommendation in this regard, therefore, no recommendation is made herein as to SA [redacted] since commendation was considered separately.

SA [redacted], as well as the informant, are under the immediate supervision of SA CARL N. FREYMAN, supervisor of Security Squad #2 (major case squad). As the Bureau is aware, SA FREYMAN originally developed this informant and has been previously commended for his excellent work in the original development. Since that time the informant has attained a high position of leadership in the CP and the value of his information has correspondingly increased. The informant still looks to SA FREYMAN on occasions for guidance and advice. FREYMAN frequently meets with the informant at night and over weekends with SA [redacted] and is still making a substantial contribution to the continued control and development of CG 5824-S. I recommend a letter of commendation to SA FREYMAN.

I am attaching a special Performance Rating on SA FREYMAN for the purpose of recommending that the Bureau give consideration to his reallocation to Grade GS-14.

SA FREYMAN has demonstrated supervisory ability and is interested in administrative advancement. He is available for general or special assignment wherever his services may be needed. He entered on duty as a Special Agent February 2, 1942, has been in Grade 13 since March 2, 1952, and has been a full-time field supervisor since July 26, 1954. He is regarded as the number 1 security supervisor in this office and is in charge of the overall direction of security matters in the absence of the ASAC.

As reflected in the attached Performance Rating, SA FREYMAN supervises the major groups squad which includes all of the basic revolutionary groups, front organizations, key figures, top functionaries, as well as the majority of the security informants and panel sources in this office. As of November 30, 1955, SA FREYMAN had under his supervision 29 agents and approximately 270 cases. He is responsible for the direction of many of the more important and complicated security investigations in this office.

Regarding contributions to the Bureau, SA FREYMAN without question as an individual has, during the past five years, made a tremendous contribution to the Bureau in the security field. He is personally responsible for the development of 7 current active security informants in addition to a number of others which have since been discontinued. He personally developed CG 5824-S, who is considered one of the best Bureau informants in the security field, as well as [redacted] both of whom are acting on a district level in the Chicago area. On July 11, 1952, he was awarded a superior accomplishment award for outstanding and extremely important services

rendered in the development of a highly confidential source of information. He has been commended by the Director on a number of other occasions for his contributions to security work. One of the most noteworthy was in the form of an incentive award paid on February 10, 1955, for the outstanding caliber of his service in connection with the trial of Smith Act subject CLAUDE RACK LIGHTFOOT. The Director commended him for his untiring efforts in the preparation of this case for trial and his exemplary performance in furnishing invaluable assistance to the prosecuting attorneys. His keen analysis and knowledge of the overall Communist picture in this area has been of invaluable assistance in the progress which has been made in security work during the past year. He has under his supervision the cases involving prosecution of Communist Party functionaries under the Smith Act not only in this area but on subjects residing in territories covered by other offices. In addition, he is responsible for the supervision of numerous front organizations on which prosecutive summary reports have been prepared in the past year in preparation for hearings before the Subversive Activities Control Board. He has directed the preparation of these reports so that the Bureau's deadlines have been met in all instances.

It is recognized that during the past twelve month period, Supervisor FREYMAN has been criticized on several occasions for errors appearing in reports which he has approved. He is an extremely conscientious and diligent worker and the nature of the cases under his supervision naturally requires a heavy volume of mail going across his desk. In spite of this heavy volume SA FREYMAN has made every effort to hold these errors to a minimum and has devoted long hours to the Bureau's service as is demonstrated by the fact that during the past year he has averaged between 3½ hours and 5 hours a day voluntary overtime.

It is my feeling that the overall services of this supervisor have been of the highest caliber detracted only by those instances wherein errors were noted in reports approved by him. It is respectfully recommended that the Bureau consider his reallocation to Grade GS-14 at this time.

Dear Mr. Freyman:

Your skilled assistance and guidance in the handling of a confidential source of information pertaining to internal security matters are deserving of recognition and commendation.

I note that you have manifested an extensive knowledge of your work in helping to direct this individual's activities and have many times sacrificed your personal convenience in order to further the Bureau's interests. It is a pleasure to advise you of my appreciation.

COMMENDATION MATTER

CARL N. FREYMAN

Rebulet 6-1-56, requesting my views as to letters of commendation for appropriate personnel of the Chicago Division in view of the continued advancement of this informant to the highest levels of the Communist Party organization.

As the Bureau is aware, numerous problems have arisen, particularly during the past year, in the handling of captioned informant, principally because of two existing factors, first the continued ill health of informant and [redacted] and secondly the maintenance of security and the establishing of cover essential to the informant because of his elevation to the highest levels in the Party. As a result, numerous conferences have been held during the past year with SA [redacted] who directly handles the informant, Field Supervisor CARL N. FREYMAN, under whose supervision the informant is maintained, ASAC [redacted] and myself. During these conferences all factors relating to the handling and direction of this informant have been discussed in detail to insure his continued value to the Bureau.

Recommend that the following employees receive letters of commendation for the reasons indicated:

SA [redacted]

[redacted] has handled CG 5824-S since approximately March 1, 1955, during which period his greatest progress has been made. Informant's availability is uncertain and it has been necessary for [redacted] to be available night and day seven days a week. [redacted] has devoted his personal time unstintingly to the handling of this informant and this has contributed to his continued advancement.

PERSONAL & CONFIDENTIAL

SUBJECT: COMMUNIST PARTY, USA
ILLINOIS-INDIANA DISTRICT CONVENTION
MARCH 30 and 31, 1957

COMMENDATION MATTER

In connection with the confidential coverage of the above named convention, the results obtained as set forth below are believed to be of such an outstanding nature as to warrant commendation from the Bureau for the agent personnel responsible therefor. The coverage of this District Convention held March 30 and 31, 1957, the results of which have now been completely analyzed, has resulted in the most complete coverage ever obtained of such a convention by the Chicago Office.

In addition to six live informants who attended the convention and have furnished detailed reports thereon, this office was successful in obtaining a complete transcript of the first day's proceedings. On Saturday, March 30, the total attendance was 84 individual Communists, whereas on Sunday, March 31, the estimated total attendance was 90. Complete reports of the two days activities have been obtained fully covering what transpired at the convention. Through a photographic surveillance established under unusual conditions on March 30, 1957, the agents obtained excellent photographs of 69 individual CP delegates all but one of which have been positively identified by security informants and/or agent personnel. The security informants in attendance themselves have identified 65 of these photographs. In addition, 19 other individuals on whom photographs were not obtained were identified as being present by informants so that all 84 persons in attendance have been identified. Another photographic surveillance was set up on March 31, under different conditions since the convention was held at a different location and 73 individual photographs were obtained of which 69 have been positively identified. A total of 21 additional individuals have been identified as being present by informants so that all 90 individuals in attendance as delegates have been identified.

Re: CP, USA
ILL.-IND. Dist. Convention
3/30 and 31/57

The convention on March 30, 1957, was held on the 3rd floor of Ferrara Hall, 772 West Taylor, Chicago, Illinois. This information was furnished by [redacted] three days prior to the convention date. It was ascertained that there was a stairway leading up to the 3rd floor which must be utilized to enter the convention hall. Our survey reflected that at the head of the stairs there was a small room which could be made available to the agents. We arranged to have a sign painted advertising the use of Ferrara Hall which was hung at the head of the stairs on the 2nd floor. Two photographs of this sign are enclosed. Small holes were punctured through the black portions of this sign through which three cameras were utilized to secure photographs. Two samples of the photographs obtained are attached which are excellent for identification purposes. These photographs are of [redacted] and [redacted]. The technique utilized above and the results obtained are being submitted because it is felt that it is an unusual technique which might be utilized to advantage by other field divisions. Agent personnel were required to remain in the small room throughout the day to take these pictures as the CP convention broke up during the late evening hours. b7D

On Sunday, March 31, 1957, the second day of the convention, the meeting was held in Aldine Hall, 933 Armitage, Chicago. The location of the second day's meeting was kept secret until after the convention broke up on Saturday evening, March 30. CG 5824-S* late Saturday evening furnished us with the location of the second day's meeting which enabled the Chicago Office to establish photographic coverage.

The part played by each Special Agent in obtaining these excellent results is set forth below.

Supervisor CARL N. FREYMAN

All of the above accomplishments were achieved under the direct supervision of SA FREYMAN, Supervisor, Security Squad #2. In addition, upon receiving advice as to the location of the second day's session, SA FREYMAN spent most of the entire evening setting up the photographic surveillance, securing a plant across the street and on Sunday, March 31, he spent all day personally directing the photographic surveillance. He spent many long hours in assuring the success of these operations and the results obtained are due in great part to his excellent supervision.

SAs [] and []

SAs [] and [] were directly responsible in effecting the initial contact with the source which made the premises at Ferrara Hall available to the Bureau. They performed outstanding work in perfecting the photographic plant and demonstrated considerable initiative, imagination and investigative ability in utilizing the sign technique and securing plant facilities which enabled us to operate with full security. Both Special Agents spent many long hours for two days prior to the convention as well as all day Saturday to assist in achieving the results obtained.

SAs [] and []

These two agents assisted in handling technical coverage throughout the first day of the convention and performed excellent work in assisting in the initial installation. They handled their respective assignments in such a manner that no suspicion was directed to the plants utilized and their work contributed greatly to the results achieved.

SAs [] and []

The above two agents made the preliminary survey to determine the feasibility of technical coverage on March 30, and worked under adverse conditions for the two days prior to the convention and spent many long hours perfecting an excellent installation. They were also available to cover the convention during the entire day March 30. As a result [] was established which furnished us with a complete, excellent transcript of the entire day's proceedings.

SA []

SA [] has had considerable previous photographic experience. He personally supervised the setting up and installation of the three cameras utilized in taking photographs. He spent all day Saturday manning the cameras and took most of the photographs with excellent results. It was necessary for him to remain in a small, cramped room until the late evening hours, Saturday night. He then personally contributed much of his own time to assist in the development and identification of the photographs during the evening hours following the completion of the convention.

Recommendation

I recommend that each of the above-named Special Agents be commended by the Director for their outstanding performance in securing coverage of captioned convention.

IN-SERVICE (SECURITY)

Rebulet August 30, 1957. By separate communication the Bureau is being advised that SAs CARL N. FREYMAN and JEREMIAH J. HURLEY will report for the Security In-Service class commencing September 30, 1957. With respect to the Bureau's request for my recommendation as to these two agents receiving Inspector's Aide training, the following is submitted.

SA CARL N. FREYMAN

SA FREYMAN is full-time supervisor of Security Squad #2 in the Chicago Office. He is a thoroughly experienced agent and is definitely interested in administrative advancement. Bureau records will reflect that at the present time he has a temporary problem regarding his availability. Because of this fact he was recently reduced from GS-14 to GS-13, but was retained in a supervisory capacity in this office. He is extremely reliable, thoroughly loyal Bureau employee and it is felt that since the question of his availability is temporary in nature he should be given Inspector's Aide training.

SA JEREMIAH J. HURLEY

SA HURLEY is an experienced security agent who is full-time field supervisor of Security Squad #3. He is interested in administrative advancement and is fully available wherever his services may be needed. I recommend he be given Inspector's Aide training.

TRANSFER

Enclosed is a letter to the Director from SA CARL N. FREYMAN requesting cancellation of his transfer to the Seat of Government on the basis of a personal hardship.

After receipt of Bureau letter dated 6-4-57, I had a lengthy discussion with SA FREYMAN in an effort to assist him in resolving the problems mentioned in his letter so that he could proceed on transfer as instructed. I am convinced that he is confronted with a real personal hardship and consequently recommend that the Bureau approve his request for cancellation of his transfer.

SA FREYMAN is interested in and well qualified for administrative advancement and the personal problems he describes did not exist when he was designated a Field Supervisor. Circumstances beyond his control have required sizeable financial obligations during recent months and he is fearful that additional expenditures will be necessary in the near future in connection with the health of his mother. I feel that his unavailability is temporary and that it would be to the best interests of the Bureau to permit him to remain in his present supervisory position. I am cognizant of Bureau policy but think that in this instance an exception is justified. The Bureau will be promptly advised when the personal problem mentioned has been resolved.

Bureau records will reflect that I have received numerous transfers during my tenure of service and have never requested a cancellation. They will likewise reveal that I seldom recommend cancellation of a transfer of an employee under my supervision.

Mr. J. Edgar Hoover
Director
Federal Bureau of Investigation
United States Department of Justice
Pennsylvania Avenue at Ninth Street, N. W.
Washington 25, D. C.

CH 11 F. J. J. J. J.

Dear Mr. Hoover:

I am in receipt of your letter of May 17, 1957, transferring my headquarters from Chicago to the Bureau.

I am most appreciative of this transfer because I consider it as an advancement which I have worked for to the best of my ability and looked forward to for the past sixteen years in which I have been in the Bureau.

Approximately fifteen months ago I had the misfortune to lose my father which left me as the only child with the responsibility for my mother. About eighteen months ago she had her second cancer operation which resulted in the removal of her second breast.

Since the death of my father, I have used every reasonable effort to convince my mother, age 69, to live with me and my wife and four small children in Chicago.

Because she has her home in LeMars, Iowa, and insists on maintaining it, is close to her church and to her doctor, I have been unable to persuade her to live with me although she has no blood relatives either at my home or elsewhere who are in a position to live with her or to help her. Heretofore I have been in a position to see her and look after her several times a year even though I presently reside some 525 miles from her residence. This problem, which I had hoped could be handled in time, was therefore brought to a climax by virtue of my transfer to the Bureau which is some 1,400 miles from my home.

On June 5, 1957, I consulted with our family physician by phone. He advised that my mother is due for a two month checkup this week. Her general physical condition is as good as can be expected but he said he cannot foresee what her tests will show from checkup to checkup due to her past history.

Since I shall continue to be financially responsible to care for my mother, other personal problems which have arisen during the past two and a half years are material. During this period of time a serious operation undertaken by my wife and the birth of my third and fourth children required abnormal medical expenses in excess of \$3,000.00. Considerable additional expense was incurred by me when it was necessary to place my wife's mother in a mental institution a year and a half ago. Because of my increased family it was necessary to purchase a house in November, 1955, which required me to make stringent financial commitments.

I, therefore, after lengthy consideration of the consequences of my decision in reference to administrative advancement in the Bureau, have reached the conclusion that I cannot at this time, for financial reasons and until my family situation is resolved, meet the requirements of the Bureau for administrative advancement.

For the reasons stated above, I feel it imperative to respectfully request cancellation of my transfer to the Bureau.

When I accepted my present supervisory position approximately three years ago, none of the aforementioned circumstances existed. I accepted these responsibilities with the full knowledge of the requirements for advancement. Since that time I have given unselfishly of my time and effort to advance and I believe my performance ratings will bear this out. As a career employee of the Bureau I shall always continue to be anxious to advance in the Bureau's service and I am hopeful that these problems, particularly with respect to my mother, will resolve themselves in the immediate future.

It is with extreme reluctance and deep regret that I find myself unable to accept the promotional opportunity offered me for advancement.

I am fully cognizant of the fact that when you reallocated me to Grade GS-14 on January 4, 1956, that this promotion was contingent on my being assigned as supervisor of Security Squad 2 in Chicago. I want to assure you, Mr. Hoover, that I will fully understand any action which the Bureau may find necessary to take as a result of my request to remain in Chicago at the present time. You are further assured that while I am intensely interested in

administrative work and have found the past three years as a supervisor to have been the most satisfying in my Bureau career, I will graciously accept any decision made by you. I shall continue to give my best efforts as I have in the past to carry out any assignment given to me.

I am hopeful that some of my problems will be alleviated as soon as possible and as soon as this occurs the Bureau will be immediately advised.

Very truly yours,

Carl N. Freyman

Carl N. Freyman

The attached letter requests that Bureau reconsider transfer of Supervisor Freyman from the Chicago Office to the Seat of Govt. at present time since it is believed it would be to best interests of Bureau in the discharge of its responsibilities to have Freyman remain in his present capacity. Bureau records will reflect that SA FREYMAN is full-time field supervisor of Security Squad #2 (Major Groups Squad) and is regarded as the number 1 security supervisor in the Chicago Division.

In view of this transfer, I feel it essential to bring certain factors to the Bureau's attention for the Bureau's consideration. As the Bureau is aware, the Communist Party, USA at its recent National Convention held in New York City during February, 1957, made the decision to move its national headquarters to Chicago. Certain steps have already been taken in contemplation of the move. FRED FINE, member of the National Committee, has been designated as National Labor Secretary for the CP. He was in Chicago during the past week and rented an apartment in contemplation of moving his family to Chicago. A definite decision has been made to move the Labor Department to Chicago and [redacted] recently advised that in addition the national departments responsible for youth matters, farmers matters and CP education will be moved to Chicago in the near future. Reference is further made to New York airtel to Bureau dated May 17, 1957, captioned "[redacted] INTERNAL SECURITY - C". indicating that [redacted] advised the New York Office that [redacted] had been transferred to Chicago and would be leaving New York some time during the latter part of May. It is noted that [redacted] was elected Assistant National Educational Director for the CP, USA. All phases of investigation of the national office of the CP would be supervised on Security Squad #2 which is now responsible for the supervision of the Illinois-Indiana District of the CP, top functionaries, other basic revolutionary groups, Communist front organizations and related top functionary and key figure cases. In addition, this desk supervises some of the most important security informants in the Chicago area. I am fully cognizant of the significance of this contemplated move and that it would require very close, tight supervision in order that the Bureau be in a position to completely discharge its responsibilities in coverage of the CP on a national basis. For this reason, I feel that the supervisory staff on security should be as strong as possible.

b6
b7C
b7D

There has been a considerable weakening of the supervisory staff during the past several years for the following reasons:

As the Bureau is aware, during July, 1954 SA [redacted] was co-ordinating security supervisor at which time he was transferred to the Bureau. During the ensuing four month period SA [redacted] was acting security co-ordinator until he was relieved of this assignment because of his desire to be transferred to his office of preference. He has since been transferred. Former SA [redacted] was then designated security co-ordinator and remained as the number 1 security supervisor until his resignation in September, 1955. Since that time SA FREYMAN has been considered the number 1 security supervisor.

b6
b7C

There are six security squads in the Chicago Office and during the past two and a half years 7 experienced supervisors on security have been by necessity replaced. Four of these submitted their resignations, two requested to be relieved of administrative assignments, and one was transferred to the Seat of Government. As a result, three of the present six security field supervisors have had approximately six months experience on the desk while only Supervisors FREYMAN and [redacted] have

Director, FBI

May 21, 1957

Re: SUPERVISORY ORGANIZATION, CHICAGO DIVISION

SA CARL N. FREYMAN, FIELD SUPERVISOR

had over two years field experience as supervisors. SA [redacted] in view of the resignation of former supervisor [redacted], was moved over to Security Squad #5 which is responsible for the Industrial Divisions of the CP in this area as well as supervision of Cominfil of labor cases. This was done because of a definite need for additional informant coverage in this important area of CP activities and SA [redacted] has in the past six months made considerable progress in improving this coverage. b6 b7C

As the Bureau is aware, SA FREYMAN is uniquely fitted to handle his present assignment as well as to take over the responsibilities of supervising the various segments of the national office of the CP if they move to Chicago. He has had a tremendous amount of experience in the security field both from an investigative viewpoint and has had approximately two and a half years supervisory experience. His intimate knowledge of Marxism-Leninism and the organizational aspects of the CP as well as his intimate knowledge of various national functionaries and the local Communist picture in Chicago is of such a nature that the supervisory staff would be again considerably weakened if this transfer is effected at this time. I do not believe that this would be in the best interests of the Bureau.

One other factor which I feel should have a considerable bearing on the Bureau's decision, is the fact that SA FREYMAN personally developed CG 5824-S* as well as [redacted] FREYMAN continues to devote considerable time to these two informants and they consult with him on frequent occasions on a weekly basis, either by telephone or personally, to seek guidance on their many personal problems. They have the utmost confidence in him and he contributes considerably to their stability and guidance. b7D

The remaining currently assigned security supervisors in Chicago, while they have had a short tenure in a supervisory capacity, are progressing satisfactorily and are gaining valuable experience. While one of them could be assigned to handle FREYMAN's desk, there is no agent assigned to the Chicago Office who can compare with the knowledge and experience possessed by this supervisor, nor can any of them come close to rendering the outstanding service to the Bureau as demonstrated by FREYMAN during the past several years.

I am bringing the foregoing facts to the Bureau's attention at this time because I am sincerely convinced

Director, FBI

Re: SUPERVISORY ORGANIZATION, CHICAGO DIVISION

SA CARL N. FREYMAN, FIELD SUPERVISOR

that it would be to the best interests of the Bureau in the discharge of its responsibilities to have FREYMAN remain in his present capacity at this time. The Bureau is respectfully requested, therefore, to reconsider the transfer of Supervisor FREYMAN from the Chicago Division at the present time.

SUBJECT: COMMUNIST PARTY, USA
 ILLINOIS-INDIANA DISTRICT CONVENTION
 MARCH 30 and 31, 1957
 INTERNAL SECURITY - C

COMMENDATION MATTER

The attached memorandum from SAC, Chicago, recommends commendation for ten Agents in connection with coverage afforded captioned convention. SAC, Chicago, advises that coverage of this convention was the most complete ever obtained of such a convention by the Chicago Office. All eighty-four persons attending the March 30 session have been identified and all ninety individuals attending the March 31 session have been identified. In addition to live informant coverage, a complete transcript of the first day's proceedings was obtained and photographs were taken of sixty-nine of the first day's delegates and seventy-three of the second day's delegates. The March 30 session of this convention was held on the third floor of Ferrara Hall, Chicago. A survey by Chicago Agents revealed that delegates would have to use a stairway leading up to the third floor convention hall. Agents arranged for the use of a small room at the head of these stairs and had a sign painted advertising the use of the hall which was hung directly in front of the stairs. Small holes were made in the black portions in this sign through which three cameras were utilized to secure photographs. The Sunday, March 31, session of this convention was held at Aldine Hall, Chicago. The location of this session was kept secret until the close of the Saturday session; consequently, Chicago had only one night to arrange coverage. The contributions of each Agent to this operation are summarized below. (S)(U)

Supervisor Carl N. Freyman ✓

Directly supervised the entire operation. Spent most of the entire evening on Saturday, March 30, setting up the photographic surveillance for the next day's session. Spent all day Sunday, March 31, personally directing the photographic surveillance. (S)(U)

SAs [redacted], and [redacted]

Directly responsible for the initial contact with the source which made Ferrara Hall available to the Bureau. Performed outstanding work in perfecting the photographic plant and in utilizing the sign technique. Spent many long hours, including all day Saturday, on this operation. (S) (U)

SAs Kenneth K. Smythe and [redacted]

Assisted in handling technical coverage of first session and performed excellent work in the installation. Handled their respective assignments in such a way that no suspicion was directed to the plants utilized. (S) (U)

SAs [redacted] and Lloyd H. Nelson

Made the preliminary survey regarding the technical coverage on March 30 and worked long hours under adverse conditions for the two days prior to the convention in perfecting an excellent installation. Also available to cover the convention during the entire day March 30. (U)

SA [redacted]

Supervised the installation of the three cameras utilized. Spent all day Saturday, March 30, manning the cameras and took most of the photographs with excellent results. It was necessary for him to remain in a small, cramped room until the late evening hours Saturday night. Contributed much of his own time to assist in the development and identification of the photographs during the evening hours following the completion of the convention. (S) (U)

SAs [redacted] and [redacted]

Spent all day Sunday, March 31, in the photographic plant and obtained identifiable photographs of 73 out of 90 individuals in attendance. Also spent a considerable amount of their own personal time after hours assisting in the development and identification of the photographs. (S) (U)

SAC, Chicago, recommends that each of the above-named Agents be commended by the Director for their outstanding performance in securing coverage of this convention. (S) (U)

Reurlet 7-26-54.

Before the Bureau acts on your recommendation concerning the supervisory changes recommended in your letter, it is desired that you interview SA [redacted] and obtain from him an unequivocal statement concerning his availability for general and special assignment wherever the needs of the Bureau require. In this connection it is noted that as recently as 5-4-54 he offered to defray the expenses of a transfer to the Salt Lake City, Los Angeles, San Francisco, or Phoenix Office. His file reflects that previous requests for assignment to certain offices had been made by him in view of his desire to be located in the West. It is imperative that SA [redacted] be completely available for general and special assignment if he is to be approved in the supervisory position for which you have recommended him.

In connection with SA [Carl N. Freyman] recommended by you to serve as Supervisor of Security ~~Post #111~~ it is noted that on 4-13-54 you advised that the stated preference of this Agent is in the investigative field. As you are aware, the Bureau desires that supervisory positions be filled by those Agents who are interested in further advancement along administrative lines and who are considered capable of such advancement. Accordingly, you should discuss this matter with SA Freyman and determine if he is interested in advancing along administrative lines at the present time. Your comments concerning his capability for such advancement are also desired.

No action is being taken concerning your recommendations set out in your letter of 7-26-54 pending receipt of your reply which should be submitted without delay.

In view of the transfer of Coordinating Security Supervisor [redacted] to the Bureau, it is necessary to make reassignments in the supervisory staff of the office.

There is attached hereto a photostat of an organization chart of the Chicago Office as of November 18, 1953. It will be noted thereon that there are five security desks, desks numbers 3, 8, 9, 10 and 11. The chart clearly reflects the type of cases handled on each desk. There is only one approved supervisory position for each of these desks although there are approved relief supervisors to act in the absence of the regular supervisors.

Reference is also made to my letter of December 11, 1953, captioned as above, justifying the continuation of desks numbers 3, 10 and 11.

As of June 30, 1954, there were 1,737 pending cases assigned to these desks and a delinquency of 35 per cent. During June, 1954, 503 cases were closed by the combined security squads although it should be noted that many security cases are not conducive to closing and are kept pending for years. Following are additional statistics on these desks as of June 30, 1954:

<u>Desk</u>	<u>Case Load</u>	<u>No. of Agents</u>	<u>Remarks</u>
No. 3	434	18	Cases supervised by desk are not all assigned to agents assigned to desk but in some instances are spread throughout office. In addition, 7 of the 18 agents assigned to desk are working full time on informant development and frequently work on cases assigned to other agents.
No. 8	275	40	Desk handles organizational work and CP underground. Fifteen of agents assigned to desk are assigned practically full time to files and reports.

Re: SUPERVISORY ORGANIZATION
CHICAGO DIVISION
PERSONNEL MATTER

<u>Desk</u>	<u>Case Load</u>	<u>No. of Agents</u>	<u>Remarks</u>
No. 9	400	25	In view of Soviet and satellite intensification program, work is increasing.
No. 10	280	20	In addition to pending work, approximately 1504 reports will be submitted during coming year primarily on closed cases due to requirement of annual reports on Security Index subjects and six-month reports on key facility cases.
No. 11	348	20	Personnel involved are comparatively inexperienced agents on security work who require continuous training and supervision.

Inasmuch as work in the security field is increasing due to the intensification program and additional investigative work is necessary in connection with the CP underground, missing Smith Act subjects, and increasing informant coverage, and in view of the increasing delinquency in security work, additional personnel as received is being assigned to security work. In view of these facts and because of the type of work involved in the security field, I feel that the continuation of the 5 security desks is justified.

It is recommended that Supervisor [] be assigned to replace Agent [] on Desk No. 3 as Coordinating Security Supervisor. Agent [] is a grade GS-13 agent who entered on duty August 12, 1940. He has served in the Pittsburgh, Newark, Phoenix and Chicago Divisions and has had varied investigative experience although most of his work has been in the security field. He possesses a mature, well-groomed appearance, has a genial personality, is an enthusiastic, industrious, aggressive worker, a very capable investigator, and an approved Bureau speaker and firearms instructor. He has had 4 years experience as a field supervisor on security work both in the Newark and Chicago Divisions, and for the past 3 years has been supervisor in the espionage and foreign intelligence field in the Chicago Division. He has had considerable experience

in all phases of security work and has demonstrated his ability to function in an executive and administrative capacity. He is available for any type assignment for which the Bureau may consider him qualified even though he has requested consideration for an assignment in the southwest.

It is recommended that Supervisor [redacted] presently assigned to desk number 11, replace Agent [redacted] as supervisor of desk number 9. Agent [redacted] is a grade GS-12 agent who entered on duty April 14, 1947. He has served in the Albany and Chicago Divisions and has had varied experience. He has been assigned exclusively to security work for more than 4 years and is well acquainted with all phases of security work, particularly in the espionage and foreign intelligence field. He presents a mature, well-groomed appearance, has a genial personality, and is a sincere, conscientious and industrious worker. He is an approved administrative firearms instructor. For approximately the past 6 months he has been the supervisor of desk number 11. He has demonstrated his ability in a supervisory capacity and is available for general or special assignment.

It is recommended that SA CARL N. FREYMAN replace Supervisor [redacted] as supervisor of desk number 11. Agent FREYMAN is a grade GS-13 agent who entered on duty February 2, 1942. He has served in the Newark, New York and Chicago Divisions and has considerable experience in both the criminal and security fields. For approximately the past 6 years he has been assigned exclusively to security work in the Chicago Division and has demonstrated his ability to handle any type case in this field. He is extremely well read on Communist ideology and has an energetic and enthusiastic approach to security work. He is mature, has shown excellent judgement, has a friendly personality, and is an aggressive and enthusiastic worker. He has been an approved relief supervisor for the past year and has received training in executive and administrative work. He is available for any type assignment.

No changes are contemplated regarding desks numbers 8 and 10 for which supervisors [redacted] and [redacted] respectively have been previously approved.

For your information, in accordance with SAC Letter 54-28, dated June 1, 1954, the investigation and supervision of security work in the Chicago Division is being reorganized in accordance with some of the Bureau's suggestions although it will be approximately another month before the same can be effected. At that time a new chart will be submitted to the Bureau showing the types of cases being handled by the various desks.

With respect to SA John R. Philips it is noted that he is not available for special or general assignment. As you are aware, the Bureau considers the position of relief supervisor in the nature of training for possible administrative advancement and it is therefore necessary for an agent to be fully available for general and special assignment in order to be approved for this position. The Bureau, therefore, cannot approve Agent Philips for this position at this time.
